

Jeffrey C. Berliner, D.O.
Clinical Assistant Professor

October 15th, 2012

To Whom It May Concern,

It is my pleasure and honor to write this letter of recommendation in support of Dr. Filippo De Caneva. I met Dr. De Caneva in April 2012 during his observership on the spinal cord injury unit at TIRR Memorial Hermann in Houston Texas. I was very impressed by his depth and breadth of knowledge about physiatry and osteopathy. His knowledge base far exceeded what was expected for his level of training, and he was definitely one of the brightest residents that I have ever worked with. His excellence in learning was outshined by his kind spirit, affability, and good nature. It was a pleasure to work with him and he became a colleague and a friend.

In Conclusion, I give Dr. De Caneva my **highest recommendation**. I have no doubt that he will excel in any position and career path he chooses. I also have no doubt that through his passion for helping those affected by disability, and his drive to excel, he will advance the field of rehabilitation and make the world a better place for those with disabilities.

Sincerely,

Jeffrey C. Berliner, D.O.
TIRR Memorial Herman Spinal Cord Injury Program
Assistant Clinical Professor, Dept. of PM&R, The University of Texas-Houston
